PRESIDENT'S MESSAGE *David J. Boyle*

LOOKING FORWARD, AND THANKS TO ALL!

Dear NECA Cemeterians,

It has been an honor to serve as your President of the New England Cemetery Association for the past two years.

My term began as any other but by March of 2020 and the onset of the Covid 19 pandemic it became anything but regular. We, as a board, worked together, via Zoom meetings, emails, and phone calls to get out the most up to date information to our membership.

Unfortunately, the pandemic also cancelled the 2020 and 2021 Annual Meetings along with the Frederick R. Laffond Seminar last fall. But now for the good news. As we are emerging quickly from the pandemic, I am thrilled to announce that the NECA will be holding our **51st Annual Frederick R. Laffond Management Seminar** at the Publick House in Sturbridge, Massachusetts in a few months—Monday, December 6—Thursday, December 8. Looking forward to a great seminar!

I would like to especially thank the entire Board of Directors for all their assistance throughout the past two years. Everyone has put a 100%-plus effort into keeping this organization moving forward.

I'd also like to send out a huge Thank You to all our Suppliers and Cemeterians who have continued to support the NECA through these challenging times. Looking forward to seeing you all in December.

Please continue check our website, www.newenglandcemetery.org for updates on speakers and lodging information for our Laffond Seminar in the months to come.

Sending out my very best— David J. Boyle, NECA President

NEW ENGLAND CEMETERY ASSOCIATION CODE OF ETHICS

The fundamental purpose for which this Association exists is to inspire continued effort toward the improvement of American cemeteries. To this end it seems essential that we declare the principles and ethics upon which rests the successful administration of our affairs.

We believe that it is necessary in such a declaration that we here condemn the practice of selling cemetery property for speculative or investment purposes, or upon the promise of re-sale at a profit. That such a practice is detrimental to public interest is self-evident. It defies the fundamental concept upon which the development of our industry has been predicated, and constitutes a threat to our advancement by abusing the privileges and prerogatives which we administer as a public trust.

We consider that fair dealing with the general public requires that we devote our attention to enlightenment of the people with whom we come in contact, and we charge ourselves with the responsibility of guiding and assisting individuals in their relations with us to the end that their interests be well served.

We believe in the fundamental precepts of fair competition, dedicating ourselves to the preservation of those standards which were indigenous to the founders of this Association, and which have been followed by us until an unwritten code of ethical conduct has become inherent on our method of operation.

We believe that the purposes for which this Association exists cannot be passive in nature, but that we are charged further with the responsibility of educating others to the high standards of conduct herein defined.

We offer this declaration as a basic code of ethical conduct to which we, as an Association and as individual members, subscribe—placing our faith and credit in the board basic principles here enunciated.

— J.H.C. 1940
